Figure \[fig:compare\] shows the comparison between the CorelDRAW Graphics Suite 14 subscription (of ) and a popular freeware graphics editor, GIMP. We present this comparison to emphasise that the number of products on the market has grown since and, as a result, CorelDRAW is a desirable package that is increasingly required for sophisticated workflows. ![(a) CorelDRAW Graphics Suite 14. (b) GIMP 2.10.5, originally freeware, is a flexible and powerful graphics editor with good integration with the rest of the software in the CorelDRAW Graphics Suite family. [{}data-
